THE LIVE STOCK MARKETS

UNFINISHED CATTLE IN LARGE SUP-PLY AND DIFFICULT TO SELL.

Best Grades About Steady-Hogs Weak and Lower-Sheep Steady-Condition of Markets Elsewhere.

STOCKYARDS, INDLANAPOLIS, lept. 17.-Cattle-Receipts, 1,100; shipments, 200 The combined receipts of cattle for three days but they find it will be impossible to move the supply at formr figures, and no doubt they will be willing to sell lower. Feeders who have not yet bought their supplies will find it a good time to get them. In a general way the market can be considered weak, and indications are rather favorable for lower prics. Quotations:

Choice feeding steers, 1,000 to 1,100 lbs. 4.75@ 5.00 Good feeding steers, 900 to 1,100 lbs.... 4.50@ 4.75 Medium feeding steers, 800 to 900 lbs... 4.00@ 4.50 ood to choice helfers..... Fair to medium cows..... anners and cutters ... rime to fancy export bulls Common to fair bulls..... Common to medium cows and calves .. 20.00@30.00 -Representative Sales-Steers .-6.00 3 Stockers.... 620 -Heifers .-

week thus far the receipts of hogs indicate an time last week and a decreas of fully 1,000 comthan a week ago, and fully as large as a year ago. The market opened with less competition favorable reports from other places the bidding from all quarters was lower. The demand from packers, however, was more liberal than for several days, and it did not take long for buyers and sellers to concentrate their views. Competition being less for the good heavy weights, they were the weakest, and were reported anywhere from 10c to 15c lower, while other kinds in most cases were 10c lower, and the average was generally considered 10c below yesterday. At the decline packers were rather liberal buyers, at with fair competition from shippers the trading was reasonably active and a good clearance was made, with the last sales steady at the decline. The range in prices was from 8214, and a very large proportion of sold above \$7.50. Quotations:

A Visit to the Vaults of -Representative Sales .-Sheep-Receipts, 300; shipments, 150. veek thus far the receipts of sheep and lambs been small, showing a decreas of 500 compard with the same time last week and 1,500 compared with the corresponding time a year ago. The receipts to-day were not half as large as a week ago and less than one-third as large

as a week ago and less than one-third as large as a year ago. The supply was not large enough to encourage buyers, but the demand was steady, and being fully equal to the supply, a clearance was made promptly at steady prices compared with those current heretofore this week. By most dealers the general market is considered in a healthy condition. There were no lambs here good enough to bring over \$4.65, and other sales ranged from \$3 to \$4.50. Most of the sheep brought \$3.25@3.50, and other sales were from \$2 to \$3. Quotations: Good to choice lambs. Stockers and feeding sheep... Bucks, per 100 lbs.... Horses-The receipts of horses continue liberal,

about 300 having arrived for the sale of the Blair-Baker Horse Company, against 275 the same time last week and 225 the corresponding time a year ago. There was no improvement in quality, in fact the average was hardly as satisfactory as at the corresponding time last week, but possibly some better than in the initial sale this week. There was a good attendance of buyers, but evidently there were not many urgent orders, and from the start they took adthe trading was active and a clearance was made on that basis. There was considerable complaint of losses by shippers, and they will be forced to reduce prices in the country.

Transactions at the Interstate Yards. INTERSTATE STOCKYARDS, INDIANAPOvery hard time in securing even steady prices.

The weakness is accounted for by the generally unsatisfactory quality of the receipts. The local call for desirable butcher stock is as strong as usual. The calf market was steady at last week's closing figures. The market closed quiet, with all sold. Quotations:

Good to choice steers, 1,360 lbs and up-Plain fat steers, 1,350 lbs and upward... 6.00@ 6.50 Good to choice 1,200 to 1,300-lb steers... 6.00@ 6.50 Plain fat 1,200 to 1,300-lb steers... 6.00@ 6.50 Good to choice helfers..... 4.85@ 5.25

Common to medium cows and calves...20.00@30.00 is still on in the hog market, prices to-day de-clining 5@10c from yesterday's figures. Rusiness moved easily after a trading basis had been fixed. The demand is confined solely to ship-

ping sources, but it is more than equal to the supply. The top to-day was \$7.82%, Hamrick & Christy, of Coatsville, selling a consignment averaging 253 lbs at that figure. Light hogs were quoted at \$7.70. The supply was soon disposed of, the market closing steady at the decline.

Light and heavy m xed..... Sheep-Receipts none; shipments none. The market was strong, with a good inquiry from all sources. Common stock is not wanted at any Spring lambs Good to choice yearlings. 2.00@4.00
Common to medium yearlings. 2.00@3.00
Stockers and feeding sheep. 2.00@3.00
Good to choice sheep. 3.00@3.56
Bucks, per 100 lbs. 2.25@2.75

EASIER MONEY MARKET.

General Range of Prices Somewhat Higher-Gold Imports Have a Sentimental Effect on Speculation.

NEW YORK, Sept. 17.-Speculative sentiment was further improved in Wall street to-day and prices of stocks enjoyed an additional recovery. The relief of the acute uneasiness over the money situation by the large engagements of gold for import checked the liquidation in the stock market and made it easier for the market to mark up prices again. The volume of the actual buying remained light, however, and the number of shares dealt in was no larger than yesterday. The movement hitherward of some \$7,650,000 in gold from various quarters gives some feeling of assurance that relief will be at hand when the coming additional requirements of currency by the interior will make it urgently needed. The nervous feeling early in the week was as much due to fear of this future contingency as to the then present exigency for money. The receipt of gold which has been started toward this center will be in occasional over \$400,000 of the Australian receipts which arrived in San Francisco yesterday were made immediately available to the local market by telegraphic transfer through the subtreasury to-day. The \$1,000,000 which started from England today will be available at the end of the transatlantic voyage. Of the remainder there will be one parcel of \$500,000 which is not due to arrive in San Francisco until Oct. 10. It will be seen therefore that there is no actual present relief from the process of depletion of New York bank reserves. The anticipatory payment of government interest does not keep pace with the transfers of currency to the interior through the subtreasury, which again amounted today to over half a million dollars, of which about two-thirds went to New Orleans and the rest to Chicago. The requirements of vantage of the small supply and were bidding lower prices. Owners had not expected any decline, and therefore they were reluctant in accepting bids, and it was some time before the market was well under way. Finally, however, at a decline of the small supply and were bidding the large customs payments meantime continue to drain funds from the New York banks into the subtreasury, the balance of receipts by that institution at the exbe forced to reduce prices in the country.
Among the important sales were draft teams as high as \$440, and single draft horses as high as \$215, but the bulk of the supply of medium to good chunks and drivers sold from \$75 to \$125, and smaller horses from \$30 to \$60. comparative quiet in the money market is and ruled generally below that. There was a notable rebound in the foreign exchange rate, demand and sixty days sterling bills recovering to 1/2c above the level at which gold imports were arranged. This corroborates the opinion that the gold im-

port point was slightly forced by those engagements. counts hardened in London and Paris, thus increasing the demand for sterling, and the supply of commercial exchange bills convery scarce. Quite a number of prominent stocks, among both railroads and specialties, were from 1 to 2 points over last night at one time to-day. but the prices were not held. The market closed about steady. The bond market was firm. Total sales, at par value, were \$2,708,000. United States threes, registered, gained 1/2 per cent.; the coupons 1/4 per cent., and the old fours % per cent. on the last call.

PRIVATE WIRE ADVICES.

Some Show of Strength, Though London Was a Heavy Seller.

[Meyer & Kiser's Wire.] NEW YORK, Sept. 17 .- The dealings to ready since last Friday to \$1,631,000. The day were attended with a considerable any monetary crisis was feared. London of 2 points for the common and for preferred, on manipulation, 3 points. earnings reported for the second week of September by this road show an increase of \$25,000. There is no dividend in sight for the preferred. The United States Steel issues, while showing no material advance, were well supported and were bought toby Morgan. The loss to the banks of money up to the close of business yesterday, since last Friday, through sub-treasury operations, is \$1,600,000. The prepayment of October interest on the government bonds will offset the above amount by \$1,000,000.

Prices Bid Up Slightly. [Granger Farwell & Co.'s Telegram.] NEW YORK, Sept. 17 .- The market was again very professional. There was no pressure of stocks early, and when it was evident that money would be in better supply prices were bid up, and later, when a few outside orders came in, stocks were supplied at the advance. It looks as though commission-house business would be light until money conditions are substantially better. Meanwhile pools will held prices steady or advance them as opportunity will

PUBLIC LAND GRABBED.

Eastern Speculators Said to Have Seized 250,000 Acres in California. SAN FRANCISCO, Sept. 17 .- State Mineralogist Aubury makes the astonishing statement that during the last few months at least 250,000 acres of public land in the mineralized section of California, and largely mineralized in nature, have been grabbed by Eastern speculators through the employment of dummy locators. In the tracts thus secured are included many actual mineral claims on which California miners have located and have prepared to do the assessment work necessary to perfect title under the United States mining laws. The speculators, he says, are not even timber men. They have seen that there is a great future for mining, and that the surface of California having hardly been scatched over for gold and other metals, there are untold millions of dollars awaiting the owners of these lands in the future. Mr. Aubury, therefore, advocates having the public domain all withheld from timber entry in this State until there can be an inspection to deter-mine how the lands could be properly classified, whether as timber, mineral, or agri-cultural, and he will move in that direc-

WASHINGTON, Sept. 17.—Commissioner Herran, of the General Land Office, said he knew nothing regarding the assertion that acter in California had been taken by the Pork-"dummies" of Eastern speculators. The use of "dummies" for this purpose, how-ever, has been resorted to for years by speculators, and whenever this evasion of Lardthe law has been discovered and proven by investigation land patents held by them have been canceled. Mr. Hermann said; "When parties at-tempt to obtain possession of the land through the stone or timber act or any of the settlement laws of the United States protests imediately should be filed with the Interior Department with a view to contest and the facts then will be inquired

TONE IN CEREALS STOCKS and BONDS

ABSENCE OF OUTSIDE DEMAND PRE VENTS A GENERAL GAIN.

Fears of Frost and Expectation Huge Crops Contend for the Mastery-Raid on Hog Products.

CHICAGO, Sept. 17.-The general tone grains to-day was firm. Predictions of frosts to follow the recent mild weather were a potent factor. Trade, however, was still largely confined to the local crowd, especially in wheat and oats, and, inasmuch as these pits ruled dull, price changes in them were small. Corn felt the weather most and was active most of the session. At the close September wheat was 1/4c lower, December wheat 1/8c up, December corn 1/2c higher, September corn %c higher and December oats %c up. Provisions felt the effect of a raid on October pork and closed 5c higher to 50c lower.

Rain in the Northwest, with much cooler weather predicted, was the cause of a higher opening in wheat. Cables also were steady in the face of a depression here yesterday and were construed bullishly. The fact that the receipts Northwest were much increased over last week and a year ago was offset by the expectation that in consequence of the rains the spring movement once more would be curtailed. Cables advanced a little as the session moved on and the export business was good, both Duluth and New York reporting twenty loads taken and Buffaio 100,000 bu. The fact that the outsider was not in the market worked against good gains. Much of the time the pit was almost deserted. Price fluctuations were extremely narrow and little business was done. After the first hour interest died out. September wheat sold between 73c and 721/c and closed easy, 1/c off, at 72%c. December sold from 69c to 69%c. dipped to 68%c and closed steady, %c up, at 69c. Local receipts were 200 cars, eight of contract grade. Minneapolis and Duluth reported 756 cars, a total of 956, against 547 last week and 743 a year ago. Primary re-514,000 bu last year. Seaboard clearances in wheat and flour equaled 621,000 bu. There was but one broad market to-day and that was in corn. Frost talk was the principal bullish incentive. Of late there

has been fair selling in spasmodic turns, because of talk of big crops. Many speculators believe that with the end of the month the drastic effect of last year's big crop shortage will have disappeared. That was one of the reasons for selling on hard spots. Many other traders, however, have been figuring on the big shortage now out, especially in Decenmber options, said to 15,000,000 bu. It is known that cribs along the country railroads are almost empty, and have been for nearly a year. Where there were 12,450,000 bu in the visible supply a year ago, there are but 2,000,-000 bu now. Chicago has practically the about 1,500,000 bu. Farmers are inclined to hold much of their better corn. Much of the receipts for some time to come are expected to be soft. All these conditions have made bears cautious and have induced conservative support. With hard frosts forecasted for to-night these factors once more came to light. Most of the middle West to-day was wet. General and influ-ential buying followed in December and May, and good upturns resulted. September was not so active, and at times showed a drooping tendency. The Washington crop bulletin reported much damage in the northern portions of the corn belt. Yet notwithstanding the frost talk there was all the time present a feeling that a big crop was forthcoming and this put a check on the bullish enthusiasm. December sold from 43½c to 44@44½c, and closed firm ½c up, at 43%@44c; September sold between 58@58½c, and closed firm, ¾c higher at 58%c. Receipts were 162 cars, 32 of con-

Oats ruled steady and showed no important changes in prices. There was some buying at times for manufacturers and fair support by a leader. The wet weather also had some effect, as did the strength in corn. December fluctuated only 1/4c and closed 1/4c up, at 311/4c. Receipts were 162 cars There was good activity in the provision pit. Hogs were lower, having fallen off 30 cents in two days. This induced some outside liquidation, but a good support was under the market until late in the day. When support fell off there was a flood of

tract grade.

offerings of October pork, and prices in that product fell off from \$16.671/2 to \$16.25. This worked against all other prices, and October options all closed weak. Part of this action is thought to have been for the purpose of bringing near-by and distant options nearer together. At the close January pork was 5c higher, at \$15.05, while October closed 50c off, at \$16.25. October lard closed 5c down, at \$9.771, and January 21/2c to 5c higher, at \$8.55. October ribs were 20c lower, at \$10.05, and January 21/20 higher at \$7.90. Eestimated receipts for to-morrow
